-  Not included
-  optional
-  included

The following table represents the program functions present in each model of the plier chosen

Program feature description	Basic	Intermediate	Complete
Change Force & Distance			
Change closing speed			
Select default closing programs			
Maintenance errors			
Send closing data string			
Create closing chart			
Select different types of closing modes			
Perform force and distance calibration			
Count and view closures			
Programming mode			
Possibility to use the pedals			
Set force and distance range tolerances			
Remote software update			
Interface plier program with customer system			
Touchscreen			
Closure control OK/NG			
Distance calibration tool

The following table represents the optional included in the price in each model of the plier chosen

Optional	Basic	Intermediate	Complete
Bluetooth module	✗	✗	✓
Cable module for data transmission	✗	✗	✓
Crimping program	✗	✗	✓
Ergonomic handle with single activation button for vertical use	!	✓	✓
Module to interface plier with customer data system	✗	✓	✓
Remote pedal	✗	✓	✓
Jaws set 5mm	!	!	!
Jaws set 10 mm	!	!	!
Calibration tool	✗	!	!

Calibration tool is necessary to obtain tolerances of less 100 N on the force, moreover with a single tool it's possible to calibrate more than one plier.

OPTIONALS

- Bluetooth module for data transmission € 500.00*
- Cable module for data transmission € 800.00*
- Crimping program for closing force and ear gap detection € 900.00*
- Ergonomic handle whit single activation button for vertical use € 250.00*
- Module to interface plier whit customers data system € 750.00*
- Remote pedal activation € 685.00*
- Jaws set for 5mm € 350.00*
- Jaws set for 10mm € 500.00*
- Calibration tool € 3200.00*
